Updates from Academic Affairs

JAMES HOLLOWAY, PROVOST AND
EXECUTIVE VICE PRESIDENT FOR ACADEMIC AFFAIRS

MAY 2025

Summer teaching

As of May 19, 2025

- Significant increase in summer course demand
- 15% headcount increase year-over-year:
 - 17.7% increase (up 1642) for main campus – SCH up 18%
 - 15.2% increase (up 298) for HSC – SCH up 14%
 - 7.4% increase (up 92) for AOP – SCH up 9.5%
- Have allocated additional funding from Academic Affairs to support this
- Increase may be driven in part by the new rules for Opportunity/Lottery

Fall 2025 Enrollment Outlook

As of May 19, 2025

First-year student applications for Fall 2025 are **up 3%** from last year (12,953 for Fall 2025 vs. 12,610 in 2024)

- 2783 first-year students registered for New Student Orientation (NSO) compared with 2587 in 2024
- 8% increase (note it was 11% up when I reported in April)
- Transfer admits are down 5%
- Masters admits are down 1%
- Doctoral admissions down 15% (326 admitted vs. 382 last year)

Federal proposals on financial aid

In various bills & proposals working through federal legislative process:

- Increase definition of full-time student for Pell from 12 to 15 credit hours
 - Would reduce (or eliminate) Pell funding for approximately 2/3 of students nationally
- Eliminate Pell for students taking less than 6 credit hours
- Eliminate subsidized loans for undergraduates
- Eliminate Graduate Student Plus Loans
- Institutional risk sharing payments based on defaulted loans
- Reduce federal work study funding (by 80% or more)
- Create federal PROMISE scholarship (incl. maximum price guarantee)

THANK YOU

Proposed degree program:
Bachelor of Arts in Sustainability and Environmental Studies (BASES)

Context: This program builds upon academic foundations and institutional experience in the Department of Geography and Environmental Studies (GES) and the department’s Sustainability Studies Program.

Budget projection: This program requires no new resources because it is an interdisciplinary program built on regularly offered, cataloged courses in multiple departments.

Core Courses	7 required courses, for 19 credits	All courses scheduled in GES
Knowledge Application and Experience Electives	3 elective courses, for 9-11 credits	32 possible courses in 10 departments
Degree Concentrations		
Sustainable Development	5 elective courses, for 15-16 credits	42 possible courses in 16 departments
Food Systems	5 elective courses, for 15-16 credits	32 possible courses in 14 departments
Resources in the U.S. West	5 elective courses, for 15-16 credits	30 possible courses in 12 departments

Rationale: The proposed program fills a gap for human-focused environmental degrees in the UNM undergraduate catalog.

Proposed degree program:

- CIP code 03.0103: “focuses on environment-related issues using **scientific, social scientific, or humanistic approaches** or a combination [including] basic principles of ecology and environmental science and related subjects such as policy, politics, law, economics, social aspects, planning, pollution control, natural resources, and the interactions of human beings and nature”

Existing degree programs:

- Geography B.A. and B.S. (CIP 45.0701): “the study of **spatial patterns** of human activities and cultures, of natural environments and events, and of the **methods** used to identify and portray spatial patterns”
- Environmental Science B.S. (CIP 03.0104): “synthesizes **quantitative studies** of the interactions between the solid earth, oceans, atmosphere and biological processes taking place therein ”
- Environmental Planning and Design B.A.E.P.D. (CIP 04.0401): Structured **pre-professional program** designed to meet **disciplinary objectives** and the needs of specific licensed professions
- Environmental concentrations exist in Art B.F.A. (CIP code 50.0701), Biology B.S. (CIP 26.0101), Communications B.A. (CIP 23.1304), International Studies B.A. (CIP 30.2001)

No comparable degrees are offered in New Mexico’s other colleges and universities.

Rationale: Learning goals emphasize basic and applied knowledge, and holistic understanding of social-ecological processes.

Program learning goal:

Students develop knowledge, skills, values, and awareness that enable them to become leaders in thought and action in efforts to improve social-ecological conditions.

This broad goal entails four component goals:

- Knowledge: Recall and analyze ideas and facts needed to identify, characterize, and evaluate social-ecological interactions.
- Skills: Use basic and applied problem-solving skills appropriate to the context of a social-ecological inquiry.
- Values: Show understanding of, and the ability to evaluate, ethical viewpoints of social-ecological interactions.
- Awareness: Recognize different perspectives on and experiences within social-ecological interactions.

Potential Students: At UNM, the number of “Environment” majors, across departments, has grown consistently since 2019 because environmental career options are growing.

According to the U.S. Bureau of Labor Statistics and the World Economic Forum:

- “Environmental” occupations have grown at an above-average rate since 2014.
- “Sustainability Specialist” will be the second-fastest growing occupation category globally in coming decades, behind only computer science occupations.

“Environment” and “Sustainability” occupations are common in public and private employers across NM, including technology firms, petroleum companies, non-profits, local governments, and federal agencies.

Nine UNM peer institutions offer programs comparable to the BASES proposal, and available enrollment data show that students seek comparable degrees. Two examples are:

- U. of Utah, Spring 2025: 30 Geography majors, 143 Environment majors
- U. of Iowa, Fall 2024: 20 Geography majors, 31 Sustainability majors, 76 Environment majors

In our department, there are:

- 62 Sustainability minors (from 8 Colleges, and 16 A&S Departments)
- 66 Geography majors, with about 30 pursuing environmental specialization; 13 Geography majors are pursuing a Sustainability minor
- Many alumni who are professionals in environmental, sustainability, and geospatial fields

DATE: May 1, 2025
TO: Board of Regents Student Success, Teaching, and Research Committee
FROM: Nancy D. Middlebrook, University Secretary 
SUBJECT: Curricula Approval from the Faculty Senate

The Faculty Senate approved the proposed new Bachelor of Arts program in Sustainability and Environmental Studies at the April 29, 2025, meeting.

I am writing to request that this item be placed on the agenda for the next Board of Regents Student Success, Teaching, and Research Committee meeting for consideration.

Hi Chris, It appears that you have three new concentrations. These need to be created in the concentration tab before we and curriculum committees can review this proposal. Secondly, the concentrations need to be redone in the free form text area. Rather than specifying the number of courses, we need it to specify the number of credit hours so that it counts credit totals correctly. Please contact us if you have any questions or want to work on it with us.

Effective Term and Year

Proposed Effective Term and Year

Fall 2025

Justification

Program Justification

a. What is the program and why should we offer it? Include the program's major goals.

This proposal is for a Bachelor of Arts degree program in Sustainability and Environmental Studies housed within the Department of Geography and Environmental Studies (GES). UNM should offer this degree because it will meet undergraduate demand for interdisciplinary education about human aspects of socio-ecological issues.

This B.A. program will complement existing degrees by serving students seeking environment-focused professional pathways but whose interests do not align with other degree programs that train students in broadly environmental topics. In our work teaching and advising in GES and the Sustainability Studies Program (SSP), we have found that many UNM students seek education that centers on humanistic and social science understanding of environmental issues. Other broadly environmental degrees—described below—are offered in Art, Biology, Communication, Earth and Planetary Science, Environmental Planning and Design, Environmental Science, International Studies, and Geography. In contrast to these options, the proposed degree will reflect an interdisciplinary curriculum centered on humanities and social sciences perspectives and practice about socio-ecological change, problems, and opportunities.

The mission of the proposed program is to develop changemakers who can think critically about human activity within the web of life, advocate environmental justice and equity, and develop sustainable solutions to socio-ecological challenges. The learning goal of the proposed program is that students develop the knowledge, skills, and values that enable them to become leaders in thought and action in efforts to improve socio-ecological conditions.

b. How does the program fit within the unit's future plans?

This proposal is the culmination of long-term planning and strategy to meet student needs, and reflects the department's plans to expand its engagement in environmental education.

Over the past decade, three strategic actions led to this proposal.

First, in 2014, the Department of Geography changed its name to the Department of Geography and Environmental Studies (GES). The decision to change the department's name was made based on student input about two topics. First, the "Environmental Management" degree track that existed at that time appealed to many students, although they had difficulty finding our environmental curriculum due to lack of knowledge about the scope of Geography as a discipline. A core subfield of the discipline is human-environment geography, but U.S. college students generally have low familiarity with Geography as a field of study. Expanding the department's name beyond just "Geography" was intended to help students identify an attractive degree option earlier in their career. Additionally, many students who pursued the "Environmental Management" degree track did not want as many required courses in Geographic Information Science—the other main disciplinary subfield taught in our department—because these courses did not align with their interests in environment-focused professions. While the departmental name change did not directly address student demand for a more environment-focused degree, it initiated faculty plans to establish an undergraduate degree in Environmental Studies.

Second, in 2020, the department merged with the Sustainability Studies Program (SSP), which has offered an undergraduate minor in Sustainability Studies since 2006. This merger resulted from prior, long-term planning among the department, the College of Arts and Sciences, and the SSP's founding director, who retired in 2020. These stakeholders sought to maintain the

SSP's established success, while also expanding opportunities for curricular development that would reflect the resonant missions of SSP and GES.

In particular, GES and SSP identified the desirability of a four-year degree that would allow students to major in socio-ecological change, problems, and opportunities. The intent to offer a major degree was based on student feedback: A common answer to the question, "Why did you select the Sustainability Studies minor?" has been, "Because there is no Sustainability Studies major." The SSP does not have the instructional capacity to offer a four-year degree independently. The four-year degree was envisioned as drawing upon the experiences of both SSP and GES in delivering complementary curricula that address environmental concerns.

Third, the GES-SSP merger complemented and extended efforts that the department has made to expand its environment-focused faculty to support the development of an environment-focused degree program. Since 2013, we have conducted targeted faculty hires in areas such as human dimensions of climate change. We have also opportunistically pursued faculty members through other processes, including receiving spousal accommodations and transfers from other departments. Our opportunistic tactics have enabled a strategic expansion of our course catalog and research profile to include energy security, environmental justice, economic development, natural hazards, and information design. Such topics support our Geography degrees due to the holistic nature of the discipline. The multi-disciplinary character of our faculty also indicates that we have built a foundation to deliver an interdisciplinary degree program. Half of our current faculty have terminal degrees in Geography; the other half have terminal degrees in Anthropology, Education, Engineering, Geology, Law, Public Policy, Sociology, and Sustainability. We have purposefully and strategically assembled a faculty who can deliver undergraduate degrees in Geography as well as Environmental Studies.

Finally, concerning future plans, the proposed program reflects the department's ongoing strategy to shift our curriculum toward environmental topics. There are pedagogical and practical reasons for our strategy. Many of our majors do not find our environment-focused courses until they have reached junior standing, due partly to unfamiliarity with the discipline of Geography. This often means that students take introductory-level courses simultaneously with upper-level courses and have fewer opportunities to take less-frequently scheduled courses and less time to develop knowledge and skills in Geography. Pedagogically, students would be better served through the establishment of a degree named "Environmental Studies" because this would enable them to find a desirable degree option earlier at UNM. Student learning will benefit by increasing the likelihood of early discovery of desirable degree options.

However, we are not proposing to replace the B.A. in Geography with the B.A. in Sustainability and Environmental Studies because these are two different subjects, as described below. Our faculty is qualified and able to deliver both degree programs. We anticipate that the Environmental Studies degree program will draw students away from the B.A. in Geography but will serve more students than currently pursue the Geography B.A. degree. We are also not proposing to replace the Sustainability Studies minor, because this program allows students across campus to enhance their degrees, while the proposed program will provide a degree option to students whose major interests are not met elsewhere. Additionally, as described below, Sustainability Studies and Environmental Studies are not synonymous. We anticipate that the Sustainability and Environmental Studies degree program will draw students away from the Sustainability Studies minor, because many students would select an environment-focused degree rather than a different degree enhanced with an environment-focused minor. Again, students will benefit pedagogically if they can identify and pursue a degree that matches their interests and aspirations better than current options.

c. How does the program fit within the UNM mission and strategic plan?

This interdisciplinary program is focused on human aspects of social-ecological change, problems, and opportunities, and could be a driver for the UNM 2040 vision and mission. Arguably, sustainability is the critical challenge for communities and humanity as a whole in the twenty-first century. Sustainability is addressed through three pillars: social, economic and environmental. Each of these pillars has a justice dimension. As such, this program will support the UNM vision in becoming "... a global leader in realizing human potential, addressing critical community challenges and demonstrating the power of inclusive diversity".

This proposed program will be globally oriented but focused on the future of New Mexico, through education, community engagement, and supporting governance and research. A key aspect of the three pillars approach to sustainability is to create and support thriving communities that can innovate and flourish within ecological boundaries. As such, this program will support the UNM 2040 Mission to serve communities “by building an educated, healthy and economically vigorous New Mexico”. The Sustainability Studies minor is already a source of trained professionals meeting the needs of city and state governments, non-profits, and green businesses in New Mexico. This proposed degree program will expand UNM’s role in shaping New Mexico’s future .

Finally, this proposed program will support and drive the values of UNM 2040. The proposed degree will strengthen the Environment value to protect “...our planet to ensure the health, well-being, and success of future generations.” This proposed program is globally oriented and practically focused on New Mexico, supporting the Place value of dedication “...to the peoples and places of New Mexico even as we reach for global impact for the benefit of all humanity.” This program’s social and environmental justice dimensions support the UNM 2040 Inclusion value. A key dimension in sustainability is stewarding the generative power of the web of life, which provides resources for human life and activity. As such, this program directly supports the Integrity value, in which UNM initiatives are “good stewards of the resources that have been given to us.” Finally, this proposed program’s the curriculum and faculty expertise will support and drive the value of Excellence at UNM in education, service and research.

Pre-proposal Executive Summary ⓘ

- BA Environmental Studies and Sustainability.pdf
- Provost proposal_exec-sum_090224.pdf

Program Duplication

The proposed B.A. in Sustainability and Environmental Studies will complement existing degrees by serving students seeking environment-focused professional pathways whose interests center on humanities and social science perspectives. Complementary degree programs that train students in broadly environmental topics do not have similar theoretical or topical foci.

First, existing degree programs in SSP and GES do not satisfy student demands for environmental learning. SSP does not offer a major degree, and the Geography B.A. and B.S.

Correspondence

- Correspondence with other departments regarding program duplication.pdf

degrees correctly deliver formal academic training in the discipline of Geography, including, but not limited to, studies of human-environment interaction.

The proposed degree program will provide instruction in Environmental Studies and Sustainability Studies. These have emerged since the 1970s to encompass multi- and interdisciplinary research and learning about socio-ecological systems. These fields clearly contrast with other degree programs with “Environmental” names because they explicitly include humanities and social science perspectives at their core. For reference, the most relevant CIP codes and descriptions are:

- Environmental Studies, CIP code 03.0103: “A program that focuses on environment-related issues using scientific, social scientific, or humanistic approaches or a combination [including] basic principles of ecology and environmental science and related subjects such as policy, politics, law, economics, social aspects, planning, pollution control, natural resources, and the interactions of human beings and nature.” (Source)
- Sustainability Studies, CIP code 30.3301: “A program that focuses on the concept of sustainability from an interdisciplinary perspective [including] sustainable development, environmental policies, ethics, ecology, landscape architecture, city and regional planning, economics, natural resources, sociology, and anthropology.” (Source)
- Environmental Science, CIP code 03.0104: “A program that focuses on the application of biological, chemical, and physical principles to the study of the physical environment and the solution of environmental problems [including] biology, chemistry, physics, geosciences, climatology, statistics, and mathematical modeling.” (Source)
- Environmental Design/Architecture, CIP code 04.0401: “A program that prepares individuals to design public and private spaces, indoor and outdoor, for leisure, recreational, commercial, and living purposes, and for professional practice as environmental designers and architects.” (Source)

Although the Department of Homeland Security designates the first three as STEM fields, emphasis on physical and biological sciences differentiates Environmental Science from Environmental Studies and Sustainability Studies. Indeed, Environmental Science is a component element of Environmental Studies as defined in the CIP classification system. The narrow focus on sustainability distinguishes

Sustainability Studies, but this field shares a core of humanities and social science perspectives with Environmental Studies, which has a broader focus.

We propose using the Environmental Studies CIP code, while using the degree name Sustainability and Environmental Studies. The planned curriculum does not focus exclusively on the concept of sustainability. Established Sustainability Studies courses have important roles in the proposed degree program, and the inflection toward sustainability will distinguish the proposed program in comparison with other Environmental Studies programs regionally and nationally. The Sustainability Studies minor will remain available for students who seek this focus within other major degree programs (students selecting the proposed major degree will not be able to complete the Sustainability minor). The Environmental Studies CIP code is more accurate for the planned curriculum in comparison to the narrower CIP category of Sustainability Studies.

Second, UNM's other broadly environmental degrees are offered in Art, Biology, Communication, Earth and Planetary Science, Environmental Planning and Design, Environmental Science, International Studies, and Geography. These programs have goals that contrast with those of the proposed degree, as well as different CIP codes:

- Art (B.A., B.F.A., Art and Ecology concentration; CIP code 50.0701): "students develop environmental and cultural literacy with a conceptual foundation and a wide range of production skills, including sculpture, social practice, performance, and digital media" (Source)
- Biology (B.A., B.S., Conservation Biology concentration; CIP code 26.0101): "provides students with a strong background in biology as well as the complementary interdisciplinary skills critical to understanding and addressing contemporary conservation questions [... with] specialization in the importance of biological diversity from ecological, aesthetic, economic and political viewpoints; extinction as a past, present and future process, and the roles of genetics, levels of biological organization, reserves and laws in the protection and recovery of endangered organisms" (Source)
- Communication (B.A., Environmental Communication concentration; CIP code 23.1304): "The study of communication as it relates to human perceptions of, and actions toward, nature. Examines ways communication not only reflects but also helps

construct particular human relations with/in the environment; how cultural, social, political, and economic contexts and interests help shape environmental communication; and how students might envision and enact sustainable and restorative ways forward.” (Source)

- Earth and Planetary Science (B.A., B.S.; CIP code 40.0601): “a multidisciplinary science that utilizes chemistry, physics, biology, meteorology, oceanography and other disciplines to achieve a comprehensive understanding of the evolution of our planet and the solar system and to enhance the stewardship of our planet’s natural resources” (Source)
- Environmental Science (B.S.; CIP code 03.0104): “synthesizes quantitative studies of the interactions between the solid earth, oceans, atmosphere and biological processes taking place therein. The degree provides scientific training for environment-related occupations, including environmental sciences per se as well as peripheral fields such as Law and Medicine” (Source)
- Environmental Planning and Design (B.A.E.P.D. ; CIP code 04.0401): “teaches knowledge, tools and skills to advance social and environmental justice [... and] emphasizes creative way[s] to influence and respond to dynamic changes occurring in communities throughout the world” (Source)
- Geography (B.A., B.S.; CIP code 45.0701): “the study of spatial patterns of human activities and cultures, of natural environments and events, and of the methods used to identify and portray spatial patterns” (Source)
- International Studies (B.A., Environment and Sustainability concentration; CIP code 30.2001): “This thematic concentration calls on students to examine key aspects of the environment as a quintessential transregional/global issue.” (Source)

The preceding quotes are from the UNM departments that offer the degrees indicated. The language describing the Bachelor’s program in Environmental Planning and Design (B.A.E.P.D.) is most similar to the proposed program. However, the B.A.E.P.D. program and the proposed program differ significantly, and are complementary rather than competitive. First, the B.A.E.P.D. is a pre-professional program that provides undergraduate preparation for professional careers and graduate programs in planning, architecture, and allied fields. As such, the B.A.E.P.D. is directed toward knowledge requirements for specific, licensed professions rather than interdisciplinary understanding of socio-ecological systems. Second, the B.A.E.P.D. program is highly structured

to meet discipline- and profession-specific needs. Nearly all courses allowed in the major are offered in either Community and Regional Planning or Landscape Architecture; the proposed program is highly interdisciplinary. Finally, the B.A.E.P.D. program is not a STEM degree, based on the program's CIP code (04.0401), while the proposed program will be classified as STEM based on its CIP code, and on the interdisciplinarity of its requirements. The resonance of the descriptions for the B.A.E.P.D. program and the proposed program exemplify UNM's strength and engagement in issues related to social and environmental justice within global change. The two programs advance student learning in different ways and toward different purposes.

The proposed degree program complements other degree choices available to UNM students. The B.A. in Sustainability and Environmental Studies will allow students to pursue highly interdisciplinary education that focuses on human and social perspectives on socio-ecological systems, an area of student demand that is not currently met on campus.

Program Description

The Bachelor of Arts program in Sustainability and Environmental Studies offers students flexibility in preparing for diverse careers that focus on environmental issues and solutions. Students who pursue a Bachelor of Arts in Sustainability and Environmental Studies become experts in both Sustainability Studies and Environmental Studies.

The field of Sustainability Studies focuses on building and strengthening environmental, social, and economic health and vitality. Sustainability experts have the skills needed to evaluate how people use resources, and to develop creative approaches to sustainable development. Environmental Studies focuses more broadly on understanding social-ecological systems from many perspectives, including the humanities, social sciences, and natural sciences. Experts in Environmental Studies are able to analyze and explain why social-ecological problems arise, and to develop creative ways of expressing pro-environmental viewpoints.

Students who pursue a Bachelor of Arts in Sustainability and Environmental Studies develop holistic knowledge about social-ecological systems, and skills needed to develop solutions to pressing environmental issues.

Admissions Requirements

Admissions Requirements

A minimum of 26 credit hours; 23 credit hours must be in courses acceptable toward graduation.

A cumulative grade point average of at least 2.00 on all work.

- Transfer students must have a 2.00 transfer GPA.
- Continuing UNM students must have a 2.00 institutional GPA.

Demonstrated academic achievement by satisfying the following:

- Completion of General Education Curriculum: Communication.
- Completion of General Education Curriculum: Mathematics and Statistics.
- Completion of General Education Curriculum: Second Language.

Completion of any two lower-division courses in SUST or GEOG with grades of "C" or better.

Graduation Requirements

Minimum Degree Hours

All UNM undergraduate students are required to earn a minimum of 120 credits for degree completion. In addition to the program-specific requirements outlined below, all undergraduate students are required to complete a minimum of 86 credits to fulfill UNM's General Education Program requirements and other general undergraduate degree requirements. In some instances, courses included in an undergraduate degree program's requirement may also fulfill a General Education requirement. Please review the General Education Program in this Catalog for General Education information. Students within the College of Arts and Sciences must also complete: 1) a major and a minor; or 2) two majors; or 3) one of the special curricula of the College that requires no minor.

Minimum Major Hours

Students may complete the Bachelor of Arts in Sustainability and Environmental Studies as either a first major or as a second major. As a first major, the degree program consists of 40-43 credits divided into three major components:

- Core Courses (7 courses, 19 credits)

- Experiential/Methods Electives (3 courses, 9-11 credits)
- Degree Concentration Electives (5 courses, 15-16 credits)

The curriculum of the degree as a second major consists of 34-37 credits, with the elimination of one core course and one degree concentration elective.

Degree Requirements

Requirements

- Complete 1 of the following

Major

- Complete all of the following
 - Complete the following:
 - SUST1134 - Introduction to Sustainability Studies (3)
 - GEOG1150 - Introduction to Environmental Studies (3)
 - GEOG1160 - Home Planet: Land, Water, Life (3)
 - GEOG1160L - Home Planet Laboratory (1)
 - SUST415 - The Climate Crisis (3)
 - SUST434 - Sustainable Futures (3)
 - Earn at least 3 credits from the following:
 - SUST499 - Sustainability Independent Capstone Project as Research or Creative Expression (1 - 3)
 - Earn at least 3 credits from the following:
 - COMM1130 - Public Speaking (3)
 - GEOG2115 - Information Design in Science and Society (3)
 - COMM2140 - Small Group Communication (3)
 - CJ314 - Intercultural Communication (3)
 - CJ320 - Conflict Management and Mediation (3)
 - CJ327 - Persuasive Communication (3)
 - Earn at least 6 credits from the following:
 - ARTS1143 - Introduction to Art & Ecology (3)
 - ARTS442 - Site-Specific Art (3)
 - ARTS444 - Art and Ecology: Creating Change (3)
 - ARTS452 - RAVEL: Field Lab (3)
 - ARTS453 - RAVEL: Creative Production (3)
 - ARTS454 - RAVEL: Exhibit (3)
 - BIOL408L - Bosque Internship (3)
 - CRP265 - Sustainable Community Planning Methods (3)
 - CRP403 - Community-Based Practice (3)
 - FDMA1210 - Digital Video Production I (3)
 - GEOG1115 - Maps and GIScience (3)
 - GEOG1115L - Maps and GIScience Laboratory (1)
 - GEOG320 - Field Methods in Geography (3)
 - GEOG381L - Introduction to Geographic Information Systems (4)
 - GEOG389 - Qualitative Methods for Geographers (3)

- GEOG421L - Cartography (4)
- GEOG423 - Environmental Systems Modeling (3)
- GEOG426 - Critical Cartography (3)
- GEOG476 - Field Experience Abroad (3)
- GEOG483L - Remote Sensing Fundamentals (4)
- GEOG493 - Internship in Applied Geography (1 - 3)
- NATV502 - Education, Power and Indigenous Communities (3)
- SUST410 - Lobo Gardens: Community Change (3)
- WGSS498 - Feminism in Action (3)
- Earn at least 15 credits from the following types of courses:
Selected Concentration. See concentrations for requirements which vary.
- Earn at least 77 credits from the following types of courses:
In addition to the program-specific requirements outlined here, all undergraduate students must earn 77 additional credits to meet the minimum degree total of 120 credits. Additional coursework should fulfill UNM's General Education Program requirements. In some instances, courses included in an undergraduate degree program's requirement may also fulfill a General Education requirement. Please review the General Education Program in this Catalog for General Education information. Students within the College of Arts and Sciences must also complete 1) a major and a minor; or 2) two majors; or 3) one of the special curricula of the College that requires no minor.

Second Major

- Complete all of the following
 - Complete the following:
 - SUST1134 - Introduction to Sustainability Studies (3)
 - GEOG1150 - Introduction to Environmental Studies (3)
 - GEOG1160 - Home Planet: Land, Water, Life (3)
 - GEOG1160L - Home Planet Laboratory (1)
 - SUST434 - Sustainable Futures (3)
 - Earn at least 3 credits from the following:
 - SUST499 - Sustainability Independent Capstone Project as Research or Creative Expression (1 - 3)
 - Earn at least 3 credits from the following:
 - COMM1130 - Public Speaking (3)
 - GEOG2115 - Information Design in Science and Society (3)
 - COMM2140 - Small Group Communication (3)
 - CJ314 - Intercultural Communication (3)
 - CJ320 - Conflict Management and Mediation (3)
 - CJ327 - Persuasive Communication (3)
 - Earn at least 6 credits from the following:
 - ARTS1143 - Introduction to Art & Ecology (3)
 - ARTS442 - Site-Specific Art (3)
 - ARTS444 - Art and Ecology: Creating Change (3)
 - ARTS452 - RAVEL: Field Lab (3)
 - ARTS453 - RAVEL: Creative Production (3)
 - ARTS454 - RAVEL: Exhibit (3)
 - BIOL408L - Bosque Internship (3)
 - CRP265 - Sustainable Community Planning Methods (3)
 - CRP403 - Community-Based Practice (3)
 - FDMA1210 - Digital Video Production I (3)
 - GEOG1115 - Maps and GIScience (3)
 - GEOG1115L - Maps and GIScience Laboratory (1)
 - GEOG320 - Field Methods in Geography (3)

- GEOG381L - Introduction to Geographic Information Systems (4)
- GEOG389 - Qualitative Methods for Geographers (3)
- GEOG421L - Cartography (4)
- GEOG423 - Environmental Systems Modeling (3)
- GEOG426 - Critical Cartography (3)
- GEOG476 - Field Experience Abroad (3)
- GEOG483L - Remote Sensing Fundamentals (4)
- GEOG493 - Internship in Applied Geography (1 - 3)
- NATV300 - Research Methods in Native American Contexts (3)
- SOCI488 - Sociology & Criminology Internship: Field Observation and Experience (3 - 6)
- SUST410 - Lobo Gardens: Community Change (3)
- WGSS498 - Feminism in Action (3)
- Earn at least 12 credits from the following types of courses:
Selected Concentration. See concentrations for requirements which vary.
- In addition to the second major requirements outlined here, students must complete all requirements for their primary major.

Program Learning Outcomes

Learning Outcomes

- Students can demonstrate holistic understanding of social-ecological systems at multiple scales.
- Students can evaluate claims about sustainability using approaches and perspectives from biophysical sciences, social sciences, humanities, and arts.
- Students can identify, evaluate, and propose solutions to socio-ecological problems.
- Students can identify appropriate research methods for studies of socio-ecological systems, and apply specific methods in the analysis of selected socio-ecological problems.
- Students can apply academic knowledge in hands-on projects, community engagement, and other forms of experiential learning.
- Students can use cross-cultural communication, new technologies, and appropriate rhetoric to work effectively within diverse communities.
- Students can identify and express how their own personal values influence how they understand and interact within socio-ecological systems.
- Students can use ethical reasoning and judgment to evaluate justice and equity in current socio-ecological systems and in proposed solutions to socio-ecological problems.
- Students can describe and compare multiple social and cultural perspectives on socio-ecological systems.
- Students can identify and evaluate the socio-ecological impacts of their personal behaviors, and compare these to the personal impacts of other people globally.
- Students can reflect critically about their roles and identities as citizens, consumers, and actors within socio-ecological systems.

OFFICE OF
THE UNIVERSITY
SECRETARY

DATE: May 1, 2025
TO: Board of Regents Student Success, Teaching and Research Committee
FROM: Nancy D. Middlebrook, University Secretary
SUBJECT: Spring 2025 Degree Candidates

Nancy D. Middlebrook

The Faculty Senate approved the Spring Degree Candidates at the April 29, 2025 Faculty Senate Meeting. Included are the lists of the Spring 2025 Degree Candidates. Below is a summary of the total pending degrees by award type and campus.

Spring 2025 Pending Degrees by Degree Type

CAMPUS	AWARD_CATEGORY_DESC	NUM_GRADS
ABQ	Baccalaureate Degree	2,176
ABQ	Doctoral Degree	273
ABQ	First-Professional Degree (Medicine)	114
ABQ	Masters Degree	556
ABQ	Post Second. Cert/Dipl <1 yr.	56
ABQ	Post Second. Cert/Dipl >1 < 2 (Ugrad)	7
ABQ	Post-Masters Cert	58
GA	Associate Degree	198
GA	Post Second. Cert/Dipl <1 yr.	14
GA	Post Second. Cert/Dipl >1 < 2	45
LA	Associate Degree	20
TA	Associate Degree	58
TA	Post Second. Cert/Dipl <1 yr.	30
TA	Post Second. Cert/Dipl >1 < 2	25
VA	Associate Degree	47
VA	Post Second. Cert/Dipl <1 yr.	38
VA	Post Second. Cert/Dipl >1 < 2	16

Please do not publish the candidates that are on the privacy flag list.

I am writing to request that this item be placed on the agenda for the next Board of Regents Student Success, Teaching, and Research Committee meeting for consideration.

DATE: May 1, 2025
TO: Board of Regents Student Success, Teaching, and Research Committee
FROM: Nancy D. Middlebrook, University Secretary 
SUBJECT: Posthumous Degree Approval from Faculty Senate

The Faculty Senate approved the awarding of the posthumous degree for student Anthony Kanowitz at the April 29, 2025, meeting.

I am writing to request that this item be placed on the agenda for the next Board of Regents Student Success, Teaching, and Research Committee meeting for consideration.

Attachment

Posthumous Degree Request Form

The University of New Mexico recognizes that an academic degree is a matter of legitimate pride in achievement for not only students, but for the family and friends who support and encourage them. UNM also recognizes that significant progress in an academic program is, under certain circumstances, an achievement which warrants special recognition.

Accordingly, UNM has made available opportunities to bestow upon a student who dies before the completion of their program either a *Posthumous* or *In Memoriam* degree.

Posthumous Degrees may be granted under the following circumstances and terms:

- Requests may be initiated by the student's family, faculty of the department/college, or a UNM administrator.
- The student must have been in a degree status and either currently enrolled or enrolled in the academic year prior to their passing.
- The student must have completed a minimum of half of the credits required for the degree.
- The department, college, and Faculty Senate must approve requests. In addition, the Senate Graduate Committee must review and approve all graduate level posthumous degrees.
- Degrees awarded will be noted as "posthumous" on both the diploma and transcript.

In Memoriam Degrees

In the instance that a request does not fulfill the requirements of a Posthumous Degree, a "Degree in Memoriam" may be awarded. The degree will be noted as "in memoriam" on the diploma and transcript.

Instructions for Request

Prior to completing this form, we encourage you to review the [Posthumous Degree Policy](#). Please include a letter of support along with this completed form.

Initiator of Request: Ann Murphy, Chair, Philosophy Dept.

Date of Request: 20 March 2025

Email: avmurphy@unm.edu

Phone: 646-919-6911

Student's Name: Anthony Kanowitz

Student ID: 102021960

College: Arts & Sciences

Major(s): PHILOSOPHY

Concentration(s):

Minor(s):

Degree: MA in Philosophy

Number of Completed Credit Hours: 12

Would you like the Dean of Students to contact the family regarding this request? Yes ☐ No ☒

Degree Requested: Posthumous ☒ In Memoriam ☐ **Letter of Support Attached?** Yes ☒ No ☐

Thank you for your submission. For questions or to return this form, contact Lisa Lindquist, LoboRESPECT Director, at ldelgado@unm.edu.

Registrar Request:		

To: Lisa Lindquist, LoboRESPECT Advocacy Center, Dean of Students Office
From: Ann Murphy, Philosophy Department Chair
Date: 24 January 2025
RE: Posthumous Degree or Degree in Memoriam for Anthony Kanowitz

I am writing as the Chair of the Philosophy Department in strong support of granting our MA student, Anthony Kanowitz, a posthumous degree. Anthony enrolled as an MA student in the Philosophy Department in the fall of 2023, and completed one year of study toward the degree before he was diagnosed with cancer in the summer of 2024 and subsequently went on medical leave. Very sadly, Anthony passed of complications from cancer on January 9, 2025.

Anthony excelled during his year in residence in our MA program. His performance in his courses was exemplary in each and every case. One of his professors, Iain Thomson, remembers him as “a truly wonderful graduate student, not just extremely bright but unfailingly positive and enthusiastic, with a wry and subtle sense of humor, and so always great fun to talk to and have in class.” Anthony was a model graduate student, not just intellectually gifted, but a stellar departmental citizen and a pleasure to have around.

Because of the credit cap (no more than 6 credits per semester) on the UNM courtesy policy that grants in-state tuition rates to MA students during their first year in residence, Anthony enrolled in 12 credits during his first academic year at UNM. This leaves him 3 credits short of the 15 credits that would qualify him for a posthumous degree. I would like to request an exception to this credit requirement if possible. If that is not feasible, I would like to request that Anthony be granted a degree in memoriam.

Anthony was a valued member of our community in Philosophy and he will be missed. We feel that a posthumous degree or a degree in memoriam is well-deserved in his case, and that it would be a meaningful way to honor him. I also believe this gesture would be significant for Anthony’s family.

Thank you for your consideration.

Sincerely,

A handwritten signature in dark ink that reads 'Ann V. Murphy' in a cursive script.

Ann V. Murphy

April 29, 2025

TO: James Holloway, Provost and EVP for Academic Affairs

FROM: Alina Chircu, Dean

CC: Barbara Rodriguez, SVP, Kathryn Jacobson, Senior Associate Dean

SUBJECT: Provost Review and Approval for Endowed Chairs

The Anderson School of Management requests Provost review and approval of several endowed chairs. Below I describe the process for selection, highlighting the adherence to all UNM and Anderson specific policies and alignment with Donor intention (when applicable). I submit my final decisions regarding these three-year awards (to be assigned starting in AY2024-25) and look forward to your and BOR review.

AY 24-25 Endowed Chair Process and Timeline

1. On 2/23/2025 the Dean of Anderson solicited applications/proposals from all eligible faculty. Submissions were due on 3/7/2025.
2. Fourteen applications were received and ready for review by an ad hoc Dean's advisory committee.
 - a. Advisory committee member selection
 - i. The Dean solicited feedback from all faculty and the Anderson Policy and Planning committee regarding the appropriate committee composition to evaluate faculty proposals and to advise the Dean in selection of Endowed Chairs and professorships. Feedback provided from faculty provided agreement that the evaluating committee could be the Chairs of all four departments. Since two Chairs decided to apply for a Chair or professorship, the Dean asked in an all faculty meeting what an appropriate alternative might be. In the April meeting, the Anderson faculty meeting participants agreed that the dean can ask others from the respective departments to volunteer as reviewers.
 - ii. Final four-person advisory committee members were:
 - Mary Margaret Rogers (Chair of the MIDS department)
 - Raj Mahto (Chair of the FI department)
 - Craig White (Full professor in the Accounting department)
 - Doug Thomas (Full professor in the Management department)
3. On 4/1/2025 application materials were made available to the advisory committee. Each member reviewed the applications and on 4/14/2025 submitted ratings and comments to the Dean's office on the following criteria:
 - ✓ Proposal alignment with Donor Intent.
 - ✓ Attainability of proposed plan.
 - ✓ Discussion of applicant accomplishments in light of the award requirements.

- ✓ Description of use of funds relative to donor intent, criteria, and intended purpose.
- ✓ Discussion of activities as they contribute to the mission of the school and one or more strategic pillars or social impact focus for Anderson.
- ✓ Overall research record of the applicant.
- ✓ Alignment of research with the endowed chair category.
- ✓ Potential alternative chairs based upon their current research.
- ✓ Record meets the criteria in ASM Policy Manual section 2.2.5, UNM Faculty Handbook section C170 (<https://handbook.unm.edu/c170/>), and Regent's Policy Manual section 5.18 (<https://policy.unm.edu/regents-policies/section-5/5-18.html>).

4. The advisory committee met via zoom on 4/15/2025 and discussed the applicants
5. Post discussion, the advisory committee members voted on the top three candidates for each Chair via Qualtrics. Vote totals for their top recommendations were as follows:

Committee Recommendations:			Justification:
ASM Chair for Economic Development	Walsh, Steven	4 votes	Demonstrated sustained research excellence and community engagement consistent with Faculty Handbook C170. Highly distinguished record, national reputation, and innovative intellectual work align fully with Regent's Policy 5.18. Clearly fulfills ASM's criteria through outstanding leadership, scholarship, and industry impact. Highly specific about using endowed funds for significant economic development initiatives, research translation, and industry partnerships.
Creative Enterprise Endowed Chair	Luo, Xin	4 votes	Ranked #1 globally among IS scholars (2022-2024) in premier journals (ISR, MISQ, JAIS, JMIS). H-index = 54; i10-index = 133, clearly indicating outstanding scholarly clearly indicating outstanding scholarly impact. Extensive publications in top-tier IS journals (Information Systems Research, MIS Quarterly, JAIS). Proposal explicitly emphasizes using funds for high-impact research, international collaborations, and enhancing ASM's global reputation through research. Clear and detailed discussion of extensive achievements: multiple research awards, global rankings, editorial roles, and substantial grants (NSF, NSA). Exceptional professional and academic achievements, international stature, and substantial service contributions clearly align with Regents' criteria for distinction
Grasse Endowed Chair	Iyer, Subramanian	4 votes	Strong finance research, demonstrated teaching excellence, clear alignment with finance chair intent. Detailed proposal demonstrating clear, innovative, and attainable use of endowed funds in finance research and teaching enhancement. Demonstrates sustained scholarship and teaching effectiveness aligning with Faculty Handbook C170 criteria. Professional activities and scholarly record strongly align with Regent's Policy 5.18 through significant impact and recognition.

New Mexico Bankers' Endowed Chair in Banking	Chen, Hsuan-Chi	4 votes	Deep banking and finance research, strong academic credentials aligned clearly with the banking chair's focus. Regularly publishes in high quality publications (7 in 5 years) finance journals (Journal of Finance, Journal of Financial Stability). Notable citations (>2,300), highly influential studies. Explicit proposal detailing precise and impactful use of endowment in banking research and education. Proposed clear and highly relevant activities—workshops, research outputs—that perfectly meet the banking chair objectives. Significant contributions, high academic recognition, and leadership aligning fully with Regent's Policy 5.18.
--	-----------------	---------	--

The Dean also sought input from donors for the New Mexico Bankers' Endowed Chair in Banking, as required by the current donor agreement. All applicants, including the one recommended by the committee, were voted favorably by two donor representatives.

The Dean's advisory committee ensured alignment with donor intent and affirmed that the records met the criteria in ASM Policy Manual section 2.2.5, UNM Faculty Handbook section C170 (<https://handbook.unm.edu/c170/>), and Regent's Policy Manual section 5.18 (<https://policy.unm.edu/regents-policies/section-5/5-18.html>).

I agree with the committee's recommendations and now request Provost approval as soon as possible and, if approval is granted, submission to BOR for final approval so that awards can be made starting AY2024-25. Please let me know if you have any questions or if you need additional information -I look forward to discussing this with you further if needed.

Anderson School of Management

Faculty Compensation Awards

February 2025

AY2024-25 faculty compensation awards consist of:

1. Endowed chairs and named professorships – Per university policies, these are available for tenured faculty only and are awarded using the application process described below.
2. Regular compensation awards – available for:
 - a. lecturers I/II/III who meet expectations (see note below; no application or opt-out required)
 - b. post-T3 tenure-track faculty who had a successful T3 review (see note below; no application or opt-out required)
 - c. tenured faculty who meet expectations (see below) and who either opt out from the endowed application process or apply for an endowed position but are not selected for it.

Note: Regular faculty compensation awards for AY24-25 are as follows: \$3k lecturer I/II, \$5k lecturer III/CBF, and \$8k/\$12k/\$16k as defined by tracks for tenured faculty and successful T3 for tenure-track faculty. For AY2024-25, “meets expectations” will be evaluated based on the results of the Spring 2024 annual evaluation process (with results from the Spring 2025 annual evaluation process to be considered by the Dean if they result in a better outcome for the faculty member). These awards will be funded from a combination of ASM surplus and endowed sources (17 individual professorships, lectureships or fellowships with annual distributions that are too small to cover an enhanced or regular award but, per donor intent, can be awarded at Dean's discretion without the need for a committee).

Lecturers and tenure-track faculty do not need to apply or opt out, but they need to sign their award forms (to be sent by Marisa Dorn) before March 3rd in order to receive payment at the end of March.

Tenured faculty need to either apply for an endowed professorship (deadline: March 7th) or opt out (deadline: March 3) at: <https://forms.office.com/r/7nMkpidijf>.

If opting out, faculty need to sign their award forms (to be sent by Marisa Dorn) before March 3rd in order to receive payment at the end of March.

Application and opt-out process (tenured faculty only)
for endowed chairs and named professorships

The following endowed chairs and named professorships are available for application for TENURED faculty only. These will be awarded for three years at \$20,000 per year for Academic Year 2024-2025 through Academic Year 2026-2027:

- i. Economic Development (2 endowed chairs and 2 named professorships)
- ii. Ethics and Entrepreneurship (2 named professorships)
- iii. Unrestricted (2 named professorships, one of which is partially supported by regular school funds)
- iv. Accounting (1 named professorship)
- v. Finance (2 endowed chairs).

*Please view Appendix A for donor intent descriptions

In order to apply OR opt-out, please go to:

<https://forms.office.com/r/7nMkpidijf>

Application requirements:

1. Please choose one main award under a specific category for application. You can also apply to an alternative award in the same category if so desired.
2. Please submit the following:
 - a. **CV:** CV must include your date of terminal degree, institution awarding the degree, and list of all research-related activities (publications, conference presentations, etc.) as well as teaching and service information.
 - b. **Proposal:** No more than two page submission, min 10 point font (should you be interested in consideration of an alternative award in the same category, please include a third page that discusses your plans for your second preference):
 - i. include your name, department, category of the award (i.e. economic development, accounting, etc.), specific endowed award name
 - ii. discuss your accomplishments in light of the requirements for this type of award:
 1. ASM Policy Manual section 2.2.5, especially: *“Policies set by the benefactors not conflicting with Anderson School of Management policies have precedence over any other criteria. Endowed positions are awarded to individuals preferably from Anderson School of Management who have performed, and are expected to perform at superior levels, duties that will enhance the academic reputation of Anderson School of Management. Endowed positions are awarded to individuals who have excelled and are expected to continue to*

excel in the areas listed in the Anderson School of Management Policy Manual. These areas are: scholarship, teaching, and service.”

2. Faculty Handbook section C170 (<https://handbook.unm.edu/c170/>), especially: *“Endowed chairs and named professorships enable UNM to attract and retain faculty members who have outstanding records of scholarly work and/or teaching. These positions, secured at least in part by an endowment, are recognized as the most prestigious honor UNM can award its best accomplished faculty.”*
3. and, if applicable, Regent's Policy Manual section 5.18 (<https://policy.unm.edu/regents-policies/section-5/5-18.html>), especially: *“An endowed chair is an honor that can be bestowed on a scholar of distinction. This honor will allow an individual to conduct meaningful inquiry that will expand the frontiers of knowledge and instruct generations; as a result, the reputation of the University will be enhanced. An endowed chair is a singular opportunity to recognize and sustain innovative intellectual work.”*
 - iii. highlight your plans for use of the endowed funds as they relate to donor intent, criteria, and intended purpose (you can propose similar activities if the ones specified by the donor are not currently available)
 - iv. discuss how these activities will contribute to the mission of the school and one or more strategic pillars or social impact focus for our school (see attached).
3. Awards will be made based on "donor intent" (rules specified in the donor agreement), and ASM Policy Manual section 2.2.5, Faculty Handbook section C170 (<https://handbook.unm.edu/c170/>) and, if applicable, Regent's Policy Manual section 5.18 (<https://policy.unm.edu/regents-policies/section-5/5-18.html>). Tenured faculty who believe they meet the applicable criteria will submit an application to be reviewed by a committee appointed by the Dean. For AY2024-25, due to lack of volunteers, the committee will consist of department chairs (and considering donor input if so specified in donor intent), and will operate similar to DARC. Per donor intent, final decisions are made by the Dean and are subject to Provost approval and, in the case of endowed chairs, Board of Regents approval as well.
4. Final approval are expected April 2025+. Awards will start in AY2024-25.
5. If not chosen as a recipient, you will automatically receive the regular faculty compensation awards based on tracks.

Appendix A. Donor Intent

ECONOMIC DEVELOPMENT	
Award Name	Criteria, Intended Purpose, and Appointment Process
ASM Chair for Economic Development	<p>Will be awarded to individuals who have demonstrated exemplary service to ASM and UNM or through their professional career have demonstrated a commitment to continuing education, exemplary community service and professional success.</p> <p>One ASM faculty line will be devoted to the Economic Development Chair. His/her teaching load will relate to economic development and serve as a catalyst for ASM's efforts toward a major return on investment in economic development for New Mexico.</p> <p>Recommendations from the Dean of the Anderson Schools of Management will be reviewed by the Donor. The final designation of the award will be determined by the Dean, after receiving input from the Donor with approval of the Provost.</p>
Creative Enterprise Endowed Chair	The Creative Enterprise Chair position will be awarded to an Anderson School faculty member who is focused on economic development issues. These issues can include learning opportunities for students, faculty research or projects to promote economic development for the New Mexico business region.
Albert and Mary Jane Black ASM Professorship for Economic Development #1	The single most important priority for New Mexico today - that will persist into the next several decades - is economic development. The breadth of disciplines covered is very wide, including strategic management, management of technologies, electronic commerce, entrepreneurship and new business development. These professorships are to recognize those faculty who are excelling at research and public services in these areas. Assist in the recruitment and retention of exceptional faculty.
Albert and Mary Jane Black ASM Professorship for Economic Development #2	The single most important priority for New Mexico today - that will persist into the next several decades - is economic development. The breadth of disciplines covered is very wide, including strategic management, management of technologies, electronic commerce, entrepreneurship and new business development. These professorships are to recognize those faculty who are excelling at research and public services in these areas. Assist in the recruitment and retention of exceptional faculty.

ETHICS AND ENTREPRENEURSHIP	
Award Name	Criteria, Intended Purpose, Appointment Process
Jack Rust Endowed Professorship in Business Ethics and Entrepreneurship #1	<p>To be awarded to a non-traditional faculty member who will not necessarily be a PhD or be tenure-track. Will be selected based on performance from a professional life in business, has extensive business experience and is extremely capable of high performance in the classroom.</p> <ol style="list-style-type: none"> 1.) Manage the school's link with business community (e.g. promoting continuing education for managers and leaders; coordinating with the Samaritan Counseling Center's Ethics in Business Awards). 2.) Teach courses with a practical orientation for improving ethical decisions by businesses and their managers while enhancing the existing curriculum. 3.) Cultivate a series of executive speaker seminars (using national and international experts) that will be of interest to New Mexico business community, demonstrate the school's commitment to ethical business practices, and attain national acclaim. 4.) Participate in Freshman Learning Community Initiatives by either designing a course and/or teaching one each year. <p>The school/colleges that hold these endowed professorships shall determine the recipients, with the approval of the Provost and evaluate their performances based on their respective appointment and review policies. To the fullest extent possible, the processes for recommending recipients will include business community professionals on the committee.</p>
Jack Rust Endowed Professorship in Business Ethics and Entrepreneurship #2	<p>To be awarded to a tenure-track/tenured faculty member who, in addition to his/her experience in academia, will also have significant experience in the business community. Will be expected to:</p> <ol style="list-style-type: none"> 1.) Serve businesses that need assistance with ethical issues and business planning. 2.) Mentor students and student teams that provide assistance to NM businesses. 3.) Produce applied research on business ethics issues for leading business journals. 4.) Teach courses with a practical orientation for improving ethical decisions by businesses and their managers while enhancing existing curriculum. 5.) Participate in Freshman Learning Community initiatives by either designing a course and or/teaching one each year. <p>The school/colleges that hold these endowed professorships shall determine the recipients, with the approval of the Provost and evaluate their performances based on their respective appointment and review policies. To the fullest extent possible, the processes for recommending recipients will include business community professionals on the committee.</p>

UNRESTRICTED	
Award Name	Criteria, Intended Purpose, Appointment Process
ASM Endowed Alumni Professorship	<p>Preference will be given to candidates demonstrating effective teaching, active involvement with the business community that supports the mission of the Anderson Schools, and nationally or internationally recognized research.</p> <p>The Dean of the Robert O. Anderson School of Management may use discretion in awarding the annual earnings of this endowment to one or more professors according to the level of annual earnings of the endowment and the academic needs of the school. Recipients for the Professorship will be determined by Anderson School of Management policy governing selection of individuals to receive endowed lectureships and professorships. Recommendations from the selection committee to the Dean will be shared with the Donor whose input will be considered by the Dean when making a final designation or award with the approval of the Provost.</p>
Anderson Advisory Board (\$10k) + ASM surplus (\$10k)	<p>Assist in attracting and retaining the quality of faculty that New Mexico and the university needs.</p> <p>The endowed professorship will be rotated among faculty of the Anderson Schools with a term of 3 years for each appointment.</p> <p>A committee will be established by the Anderson Schools to make such appointments and at least one member of the Anderson Schools Foundation Board will be invited as a voting member.</p>

ACCOUNTING	
Award Name	Criteria, Intended Purpose, Appointment Process
KPMG Peat Marwick Professorship in Accounting	<p>The professor may already be on the faculty and the professorship will be awarded based on competency.</p> <p>The fund may also be used as an enticement to attract nationally prominent candidates for the professorship.</p> <p>Will be used as a salary augmentation for the holder of the endowed professorship. Interest which accrues from this endowment is at the discretion of the professorship for either research activities or salary augmentations.</p>

FINANCE	
Award Name	Criteria, Intended Purpose, Appointment Process
Grasse Endowed Chair	<p>The objective in creating an Endowed Chair in Finance is to educate the future business leaders in key areas of finance and to further the study of the field of finance. Tenure or tenure-track full-time professors are eligible. Faculty members during probationary periods will not be considered eligible. There are three criteria that must be evaluated by the Professorship/Lectureship Advisory Committee in consideration of the Chair in Finance: 1. Teaching Effectiveness 2. Professional Achievement and Growth 3. Contributions to Campus and Community. Since hiring decisions with the Finance Department are based upon two primary considerations, namely the likelihood in achieving excellence in Teaching Effectiveness and the likelihood of achieving productive research, these two criteria are of primary importance in determining the committee's recommendation for candidates. For Contributions to Campus and Community, adequate performance is required.</p> <p>The fund is being established to establish an endowed chair in Finance in the Department of Finance, International Technology and Entrepreneurship to support and recruit a permanent scholar in Finance according to the guidelines set forth in Attachment A.</p> <p>Disbursements to William D. Grasse Chair will be consistent with other endowed chairs, professorships and lectureships at the UNM Anderson School of Management. The awards will be made annually at the discretion of the Fund Administrator based on the Foundation's annual spending distribution plus any balance carried forward from the previous year.</p>
New Mexico Bankers' Endowed Chair in Banking	<p>The Chair will be awarded to individuals who have achieved a distinguished record through either exemplary service to the discipline of Banking/Financial Services, or have demonstrated through their professional careers excellence in the field of financial services manifest through increasing managerial responsibility and professional success. Preference will be given to candidates holding a terminal degree. Individuals under consideration must have extensive background and proficiency in banking/financial services or banking financial services research and education. The recipient must meet the university's standards required of an endowed chair holder.</p> <p>To support the education of bankers and purveyors of financial services throughout NM and beyond. Recommendations for the Chair will be made to the Dean of the Anderson Schools by a committee consisting of at least one representative from both the NMBA and the ICBA/NM, and the official faculty search committee, typically comprised of faculty and other community leaders.</p> <p>The final designation of the award will be determined by the Dean, after receiving input from the above described committee, with approval from the Provost.</p>

Recognizing Richard Towne, KUNM General Manager

The Regents of The University of New Mexico would like to formally recognize the contributions of Richard Towne, general manager of KUNM, who is retiring from UNM on June 30. Richard began at KUNM in 1994, and during the last three decades has provided strong, wise, and steady leadership that has resulted in not just a better public radio station, but in a better community.

Among his many contributions to KUNM, Richard set the station on a path to greatly expand its donation base, which in turn enhanced the quality of programming and journalism. He grew not only the monetary resources but the staff as well. He also oversaw fundraising to literally tear down the walls (of Oñate Hall), and figuratively, too, in getting disparate groups of people — staff and volunteers and the radio board — talking and collaborating. That culture of collaboration continues at KUNM today.

In addition, under Richard's leadership, KUNM made an ongoing effort to think outside the Albuquerque-Santa Fe area into small, rural areas. KUNM began talking with people in communities around the state, discussing issues like public health and poverty, providing an opportunity to delve into a kind of journalism not being done in these areas. That work not only helped communities, but helped attract new talent to the station, providing a renewed sense of stability and impact for KUNM.

Richard's philosophy for KUNM has been straightforward: "My passion is that the public owns the airwaves. We are just licensed to use them. The airwaves belong to the people."

Richard, we greatly appreciate your service and dedication to The University of New Mexico and to the listeners of KUNM.

Long Term Impact: Loss of UNM's NIH Training Grants

For more than 20 years, the University of New Mexico (UNM) has intentionally focused on building the biomedical research and health care workforce within the State of New Mexico. Building on our strength as the largest healthcare provider and medical research facility within the state, we have methodically secured NIH funding to create a workforce pipeline that supports the development of this workforce sector at every stage. These prestigious competitive grants seek to provide advanced training for our students, beginning at the undergraduate level with the Undergraduate Research Initiative for Student Enhancement (**U-RISE**) which trained and prepared undergraduate students for doctoral programs and careers in biomedical research. At the next stage, we have the Post-baccalaureate Research Education Program at UNM (**PREP@UNM**) which sought to enhance the ability of recently graduated individuals in the biomedical sciences to gain entry to and succeed in nationally recognized PhD programs and research careers.

Beyond that, we have had two hallmark programs that focus on graduate education - The Leading Equity and Diversity in the Medical Scientist Training Program (**LEAD MSTP**), which supported biomedical research training of our MD/PhD students for developing the clinical research workforce and the Initiative to Maximize Student Diversity at the University of New Mexico Health Sciences (**IMSD**) grant which supported predoctoral trainees in the Biomedical Sciences Graduate Program. Beyond graduate studies, UNM also had the Institutional Research and Academic Career Development Award (**IRACDA**) Post-Doctoral program which trained post-doctoral fellows for research and teaching careers in academia. Collectively, these training grants, enrolling ~60 learners at different stages, aimed to develop professionals equipped with the technical, operational, and professional skills necessary for success as biomedical scientists, building capacity for groundbreaking research in New Mexico and representing our state's population in the biomedical workforce.

As a result of the cancellation of all five of these programs, the pipeline has been destroyed across all of these stages of development. This severely damages UNM's ability to continue to produce biomedical scientists and harms our state by threatening our future biomedical workforce in academia and industry.

At the upper end of this workforce development pipeline is the next generation of biomedical research leaders, which includes our faculty who also train and educate future biomedical researchers and healthcare workers. UNM was also a recipient of a grant through the prestigious NIH Faculty Institutional Recruitment for Sustainable Transformation (**FIRST**) program, which no longer exists. Through this program, UNM hired 9 new tenure-track faculty members who are rising stars in fundamental data science and laboratory-based biomedical research aimed at a variety of neurological disorders. As a result of the termination of our NIH FIRST grant, UNM is faced with having to support the startup packages for these faculty (representing a >\$6M cost to the University); the possible loss of these faculty to other institutions; and the cessation of other activities supported by the grant intended to both build and retain this cohort of outstanding researchers and educators as well as to develop and extend best practices in faculty recruitment and retention to the rest of the institution. Again, NIH's termination of this program harms our institution and our state by devaluing the importance of having a university faculty that is representative of our state's population and by limiting our ability to provide a cutting-edge education to our students interested in pursuing careers as part of the biomedical workforce in New Mexico.

Federal Research Funding Impact Report

- The Numbers
- Rapid Research Response Team
- UNM Current Research Landscape
- UNM Faculty & Staff
- UNM Students and Programs

RESEARCH

research.unm.edu/federalfunding

EXECUTIVE ORDERS

- As of May 10 | 147 Executive Orders
- At least 1/3 of these directly impact federally funded R&D

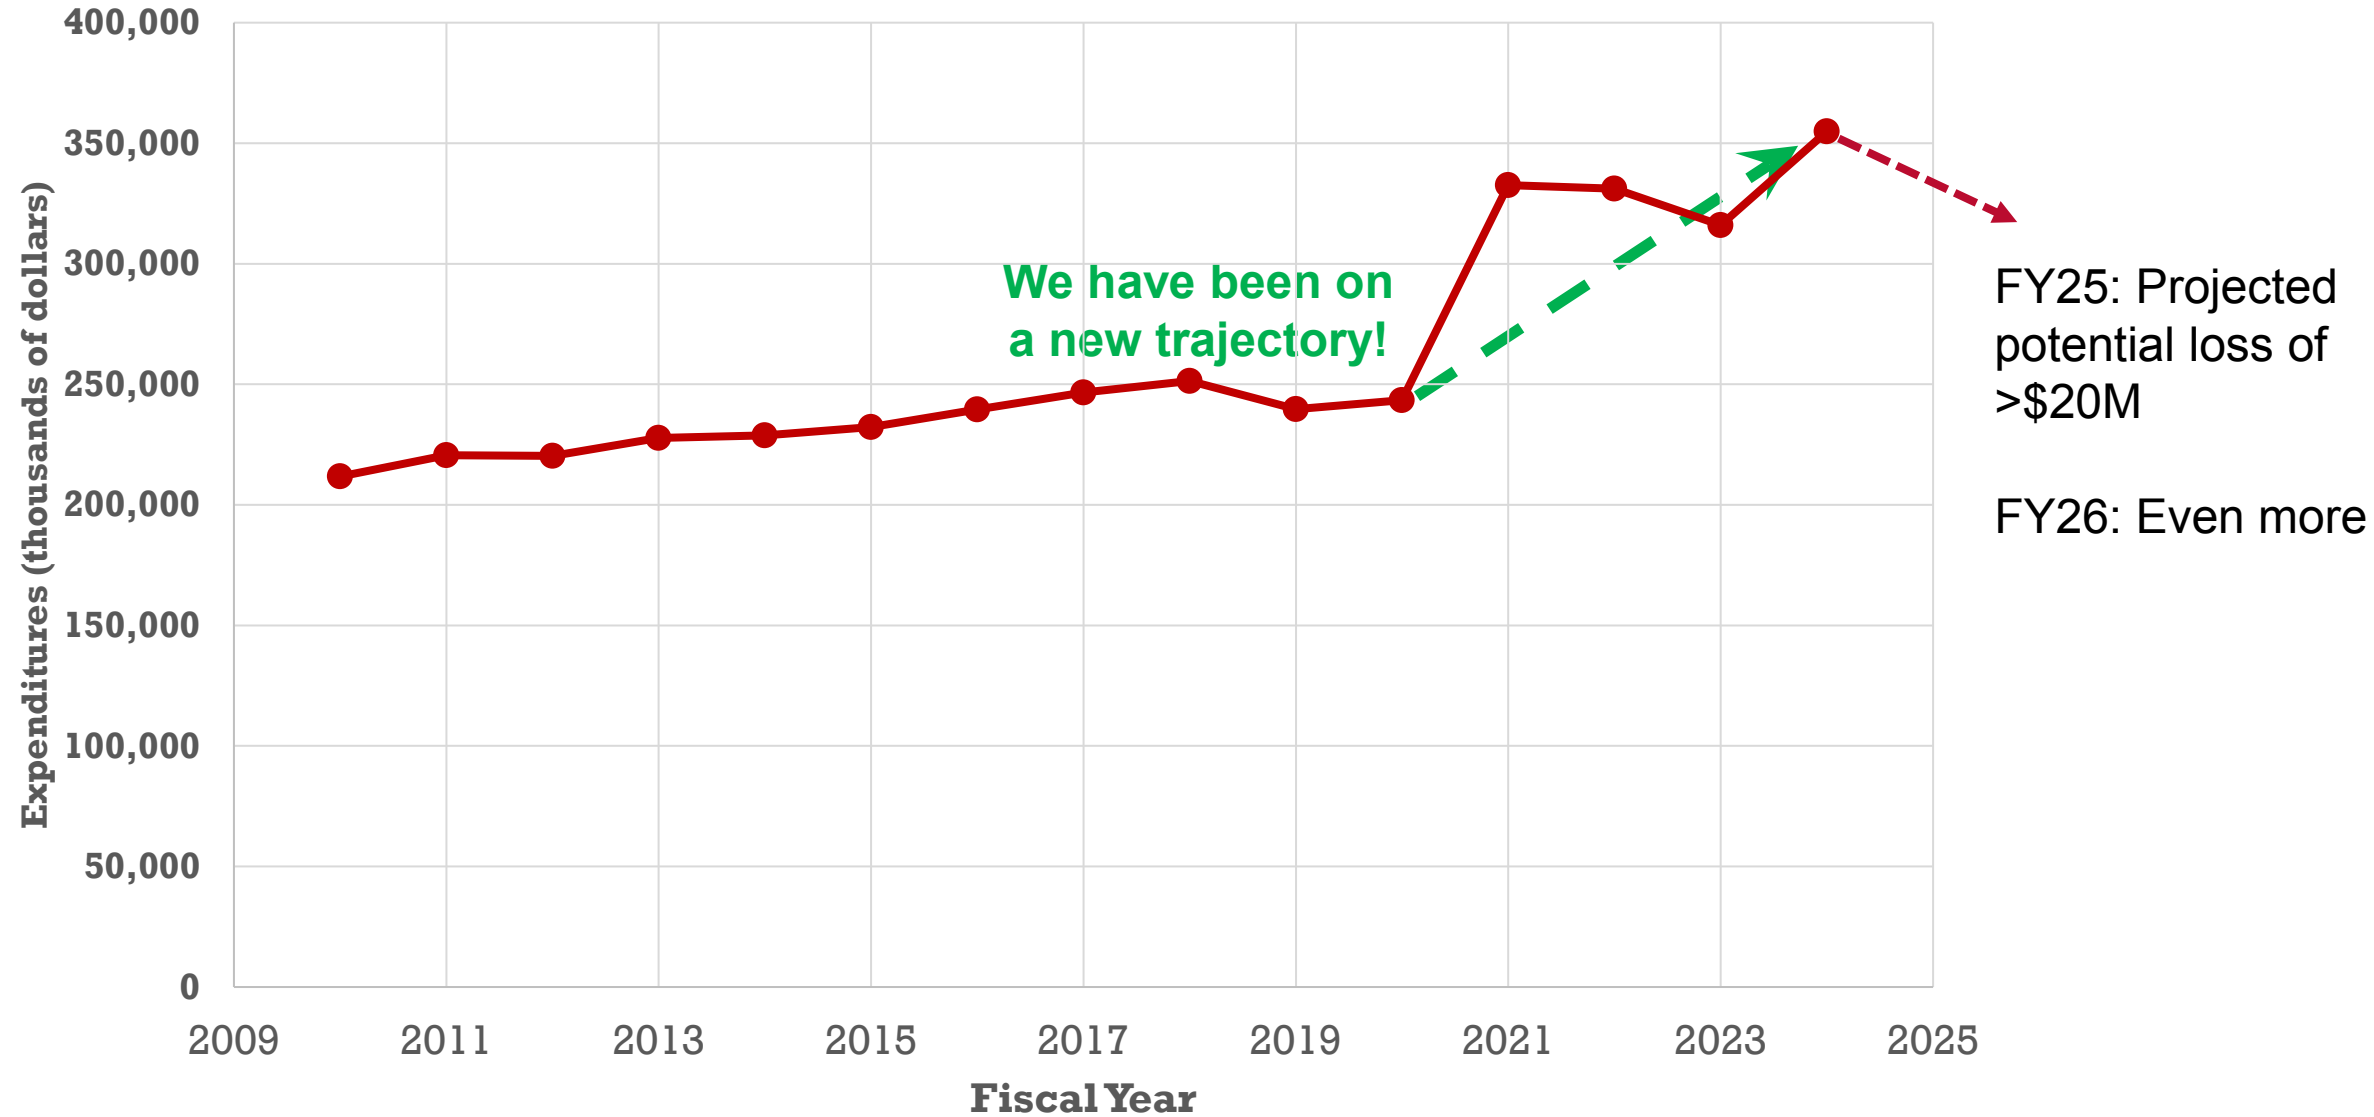

LEGAL RESPONSES

- As of May 10 | 232 legal challenges
- Responses include:
 - Temporary restraining orders
 - Preliminary injunctions
 - Many currently in appeal process
 - 7 closed cases

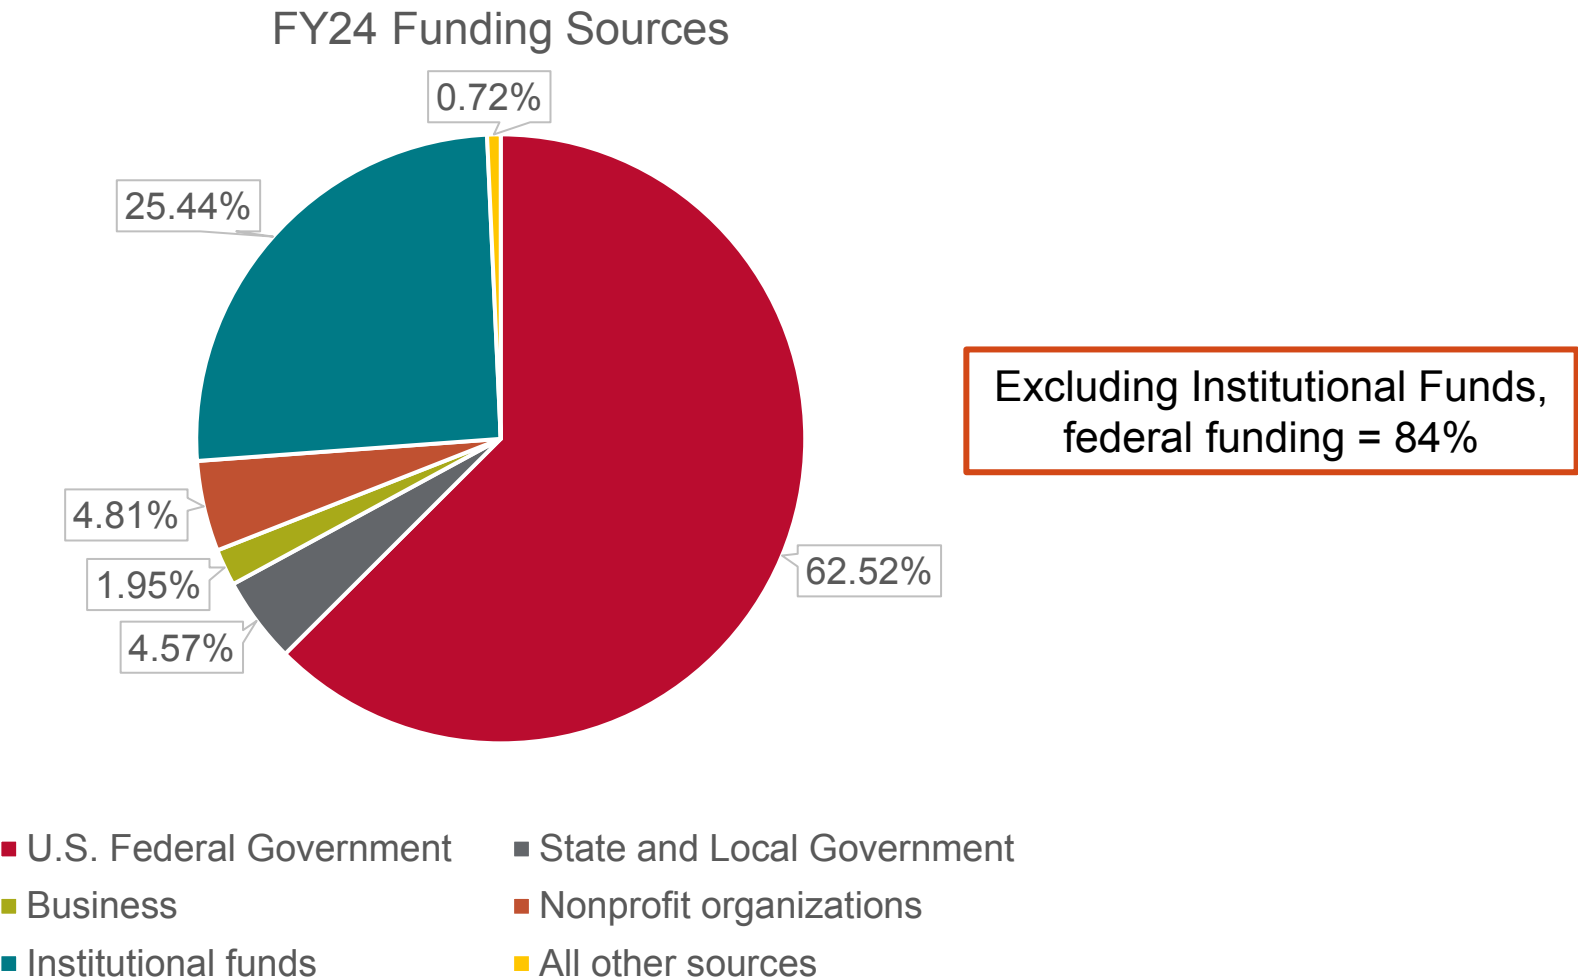

UNM RESEARCH RAPID RESPONSE TEAM

- Regular communication with campus
 - Weekly VPR Joint Communications
- Ongoing communication with congressional delegation, as well as local and state leaders
- Short term bridge funding for our most vulnerable researchers
- Responding to individual researchers' concerns
- Reviewing existing grant portfolio for “at risk” awards
- Assessing potential for “pivoting” to new lines of inquiry and/or new funders
- Monitoring funding agencies:
 - Reimbursements
 - Review panel schedules
 - Reposting of RFAs/RFPs
 - NOAs, etc.
- Close relationships with Gov Rel Team & OUC

TOTAL RESEARCH EXPENDITURES AT UNM: TRENDS

UNM Research: By the Numbers

FY23 data*:
average all universities ~55%; UNM was ~65%

Financial Impact of IDC rate of 15%

Estimated loss of annual F&A recovery w/ a change in IDC rate to 15% (based on FY24 amounts)

	FY24 Totals			Estimates	
	Total Federal Expenditures (1)	Modified Total Direct Costs (2)	Actual F&A Expenditures	Est. F&A Cost Recovery @ 15% or lower (3)	Est. Annual Loss in F&A Cost Recovery
Federal Direct	246,183,443.98	104,118,435.66	43,702,687.54	15,537,958.89	28,164,728.65
Federal Flow-Through:					
Foreign	119,615.87	85,126.31	32,688.54	12,768.95	19,919.59
Higher Education	19,790,016.90	12,326,759.17	6,071,077.05	1,849,013.88	4,222,063.17
Local Government	1,619,048.90	1,322,736.07	286,374.32	182,215.95	104,158.37
Non-Profit	9,613,478.44	6,098,362.62	1,608,968.25	745,338.84	863,629.41
Other Funds	40,616.83	28,033.24	12,583.59	4,204.99	8,378.60
Private - Industry/Corp	18,812,983.06	12,894,415.70	5,072,531.54	1,934,162.36	3,138,369.19
State Award	86,968,528.62	38,261,748.88	3,207,246.84	3,207,246.84	-
	383,147,732.60	175,135,617.65	59,994,157.67	23,472,910.68	36,521,246.99

- Total Federal Expenditures based on FY24 actuals for HSC, Main Campus, and Branch Campus restricted funds. Includes all federal funds, including direct and flow-through funds.
- Excludes all subaward expenses in MTDC totals in the above table. See below for definition of MTDC from Uniform Guidance 2 CFR 200.1 “Modified Total Direct Cost (MTDC)”
- Some agencies cap F&A at rates lower than 15% already. Most state awards and non-profit flow through awards cap F&A at rates significantly less than our current federally negotiated IDC rate of 52.5%, and many under 15%.

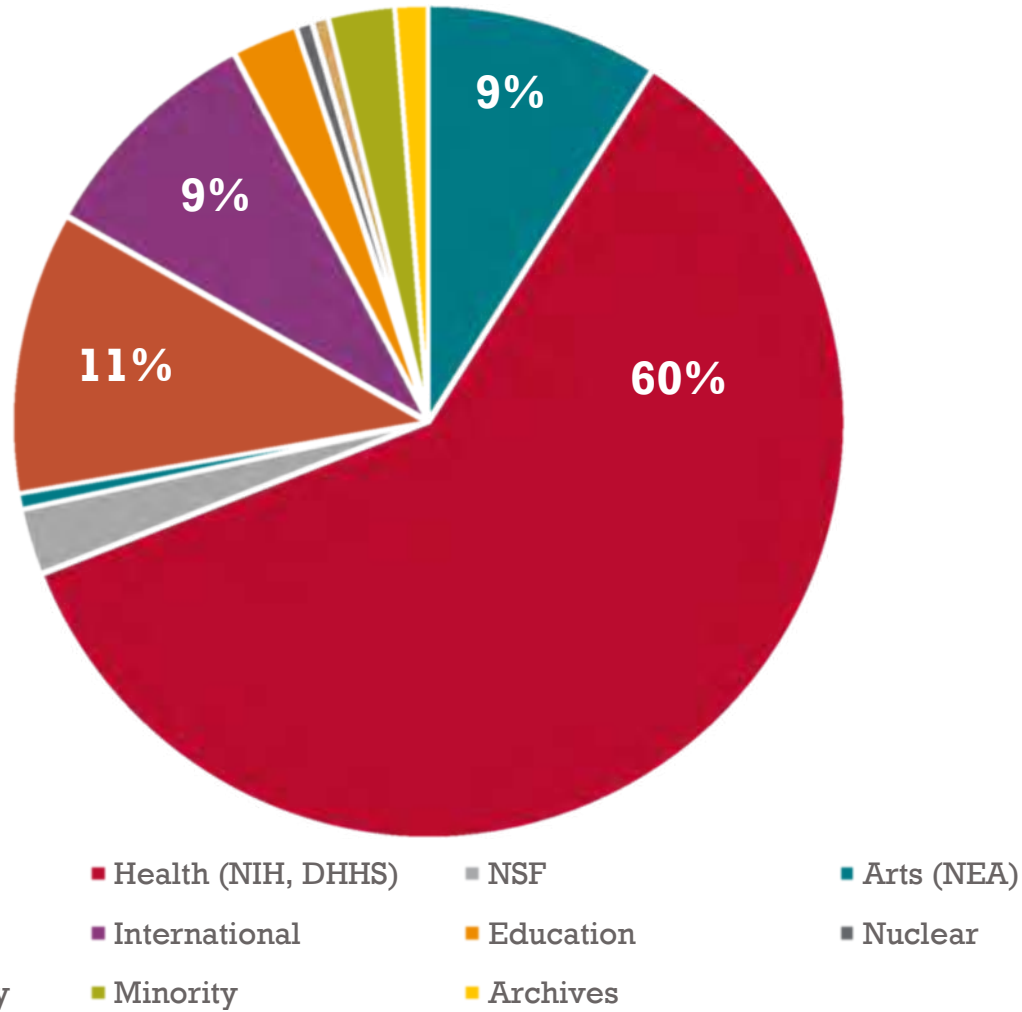

*Modified Total Direct Cost (MTDC) means all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and up to the first \$50,000 of each subaward (regardless of period of performance of the subawards under the award). MTDC excludes equipment, capital expenditures, charges for patient care, rental costs, tuition remission, scholarships and fellowships, participant support costs, and the portion of each subaward in excess of \$50,000.

Bottom line: On average, over \$7M/year in losses*

BIOMEDICAL RESEARCH & HEALTH CARE WORKFORCE DEVELOPMENT IN NM

For >20 years, UNM has intentionally focused on building the biomedical research and health care workforce within the State of New Mexico.

Building on our strength as largest healthcare provider & medical research facility within NM, we have secured NIH funding to create workforce pipeline

UNM U-RISE: Undergraduate Students

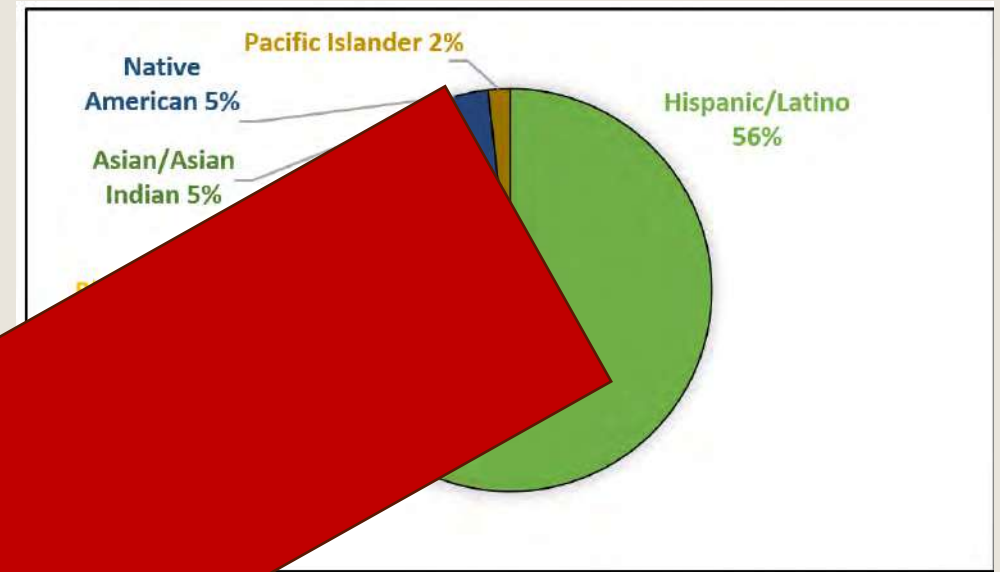

- Trained/prepared undergraduate students for doctoral programs and careers in biomedical research
- 87% of U-RISE students enroll in doctoral programs after graduating
- 10% of U-RISE students are currently in doctoral programs
- Many U-RISE students have been accepted to graduate programs at:
- Some programs recently accepted include:
 - John's Hopkins
 - University of California
 - University of Texas
 - Michigan State University
 - Duke University
 - Max Planck Institute

Noncompeting Training Grant

Main Campus

- NIH PREP@UNM
 - Postbaccalaureate
 - 17 years @UNM
 - Has supported more than 110 scholars
- Over 50 sites nationwide
 - ~80% placement in Ph.D. programs
 - Well above most other programs
- Currently 7 trainees, program is currently on hold
 - Year 2 of 5-year grant (grant #1Z01CE0012728)
 - No NOA to date (expected February 2025)

UNM GRAD STUDENT & POSTDOC NIH TRAINING GRANTS

➤ **T32 Initiative for Maximizing Student Development (IMSD)***

- Supports 15 trainees for 3 years including year 1 of the Ph.D. program
- Just ended, but some are waiting for year 4 as of Feb. 1

➤ **T32 Training Program for Underrepresented Diversity (Year 4 of 5)***

- We were planning to submit a new proposal which expired 1/19
- It was replaced by a new proposal, but "diversity" was removed
- Dates to 10/1/2025, but no new doctoral scholars

➤ **CY 2025 UNM Training Grants Projecting a total of \$10,987,602 from NIH**

- Training grant: \$10,987,602
- At risk IDEA: \$9,673,701
- 41 trainees

Jorge Moreno | Moreno is a third year Ph.D. student in the COP in the laboratory of UNM Assistant Professor Alicia Bolt. Moreno joined the Biomedical Sciences Graduate Program (BSGP) in 2022 after completing a bachelor's degree in Biology as a first-generation college student at the University of Texas San Antonio. He worked for four years at Hyperion Biotechnology toxicology laboratories before joining UNM. At UNM he is currently studying the effect of heavy metal exposure on the development and progression of autoimmune responses and breast cancer. He recently passed his comprehensive exam and is on track to complete his Ph.D. in 2028, but scheduled to move off the IMSD grant in July 2025.

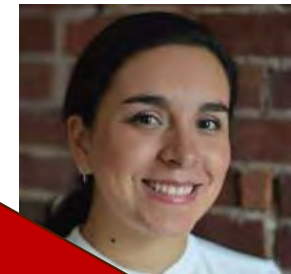

Sydnee Yazzie | Yazzie is a third year Ph.D. student in the department of Pathology withing the SOM laboratory of UNM Assistant Professor Katherine Zychowski. Yazzie is a native of Gallup and attended Eastern New Mexico University where she earned a bachelor's degree in Biology before joining the BSGP in 2022. Yazzie's project is studying the impact of wildfire smoke and environmental uranium on cardiovascular and reproductive health. Yazzie is on track to complete her Ph.D. in 2028 or 2029, but scheduled to move off the IMSD grant in July 2025.

Xavier DeLeon | DeLeon is a second year Ph.D. student in the SOM laboratory of UNM Professor Nikki Jernigan in the Cell Biology and Physiology Department. He received a bachelor's degree in Biology from UNM and then spent more than 10 years working as an educator. He returned to UNM as a graduate student, father and is currently balancing many roles while studying a novel signaling pathway that predisposes to obesity and metabolic disease. DeLeon is scheduled to move off the grant in July 2026 but won't graduate until 2028.

- ~\$15M to increase diverse medical research focus
 - Additional \$2M from TEF
 - Support for research startup costs
- Cohort of 9 new faculty across 5 departments
 - Psychology
 - Biology
 - Chemistry
 - Speech & Hearing
 - Math/Statistics
- >\$5.2-\$8.1M at risk
 - Currently in year 3 of 5
 - Renewal Sept. 1

Dr. Anna Nelson, Mathematics & Statistics (Data Science)

My name is Anna Nelson, and I became a mathematical biologist because I want to mentor the next generation of mathematicians. I am a firm believer in the strength of community and would not have made it to where I am without the advocacy of my personal and academic mentors who guided me during many hardships. **Through failing exams, transferring various academic programs, and family illnesses, my mentors were there to illuminate the path forward for me.** Therefore, I am dedicated to paying it forward to show students and mentees what is possible in the field of biology in this increasingly computational world. I believe in the strength of community and believe that science has improved with mathematics and close collaboration.

Late

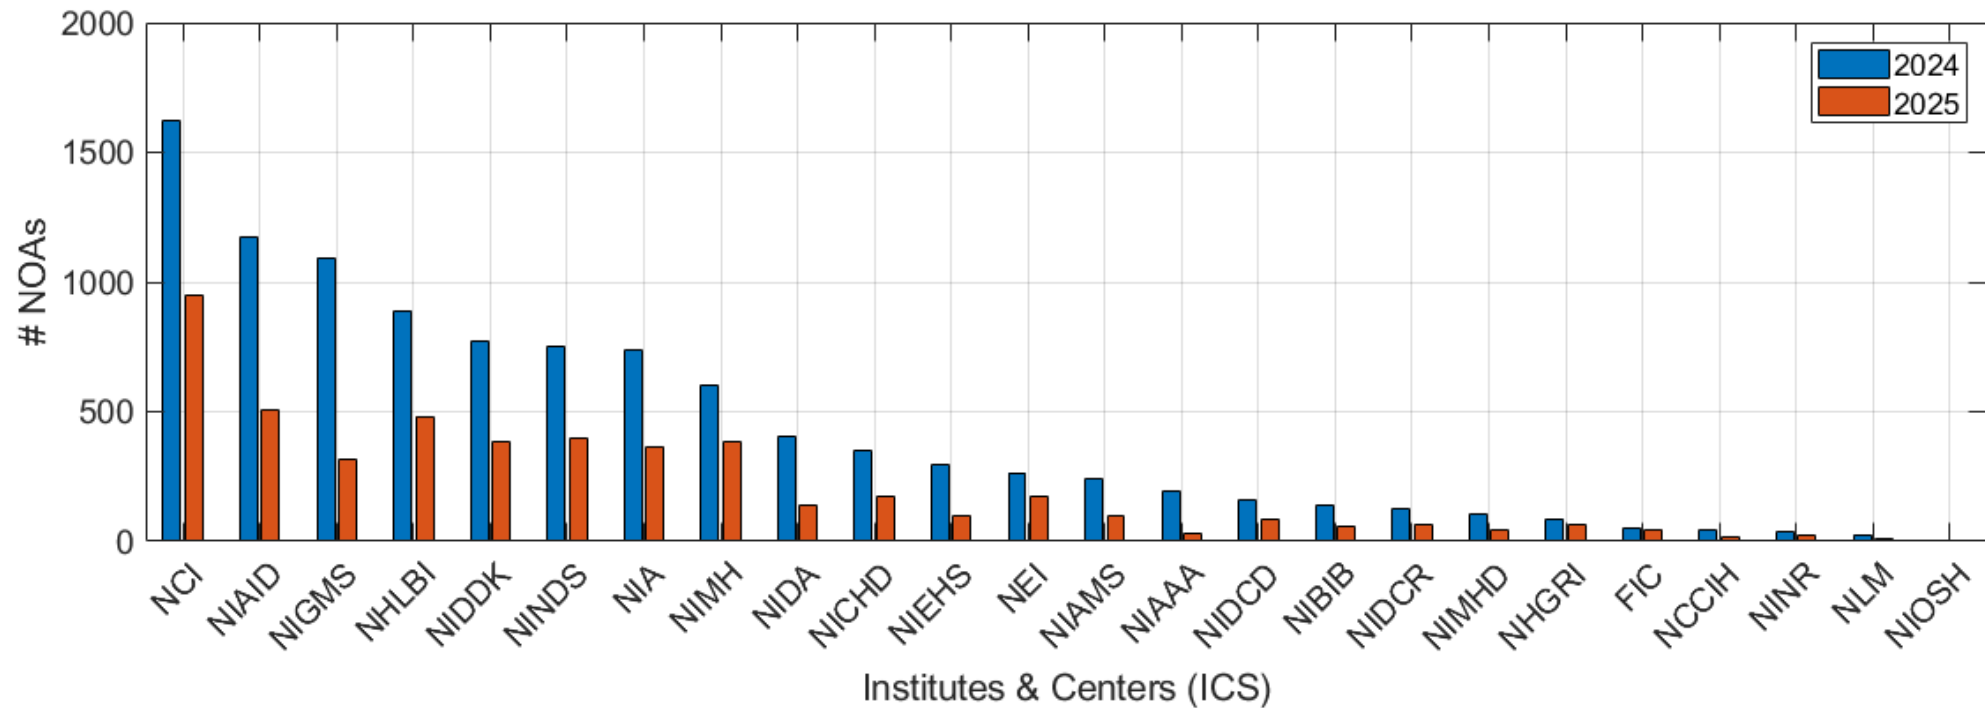

My name is Anisha Shakya, and I have encountered many major stressors throughout my life. These stressors have occurred throughout every developmental stage and age period of my life. In the past few years, I have experienced these stressors, traumatic events, and significant global events. I am seeing the lasting effects these events are having on mental health studies. It is well known that consumption of alcohol is used as a short-term coping mechanism. **Research is not just a profession, it is personal as I have seen the impact of substance use specifically with substance use. Understanding the role of maladaptive alcohol drinking may provide insight into the lives of individuals with PTSD and**

Dr. Anisha Shakya, Chemistry & Biochemistry (Biochemistry)

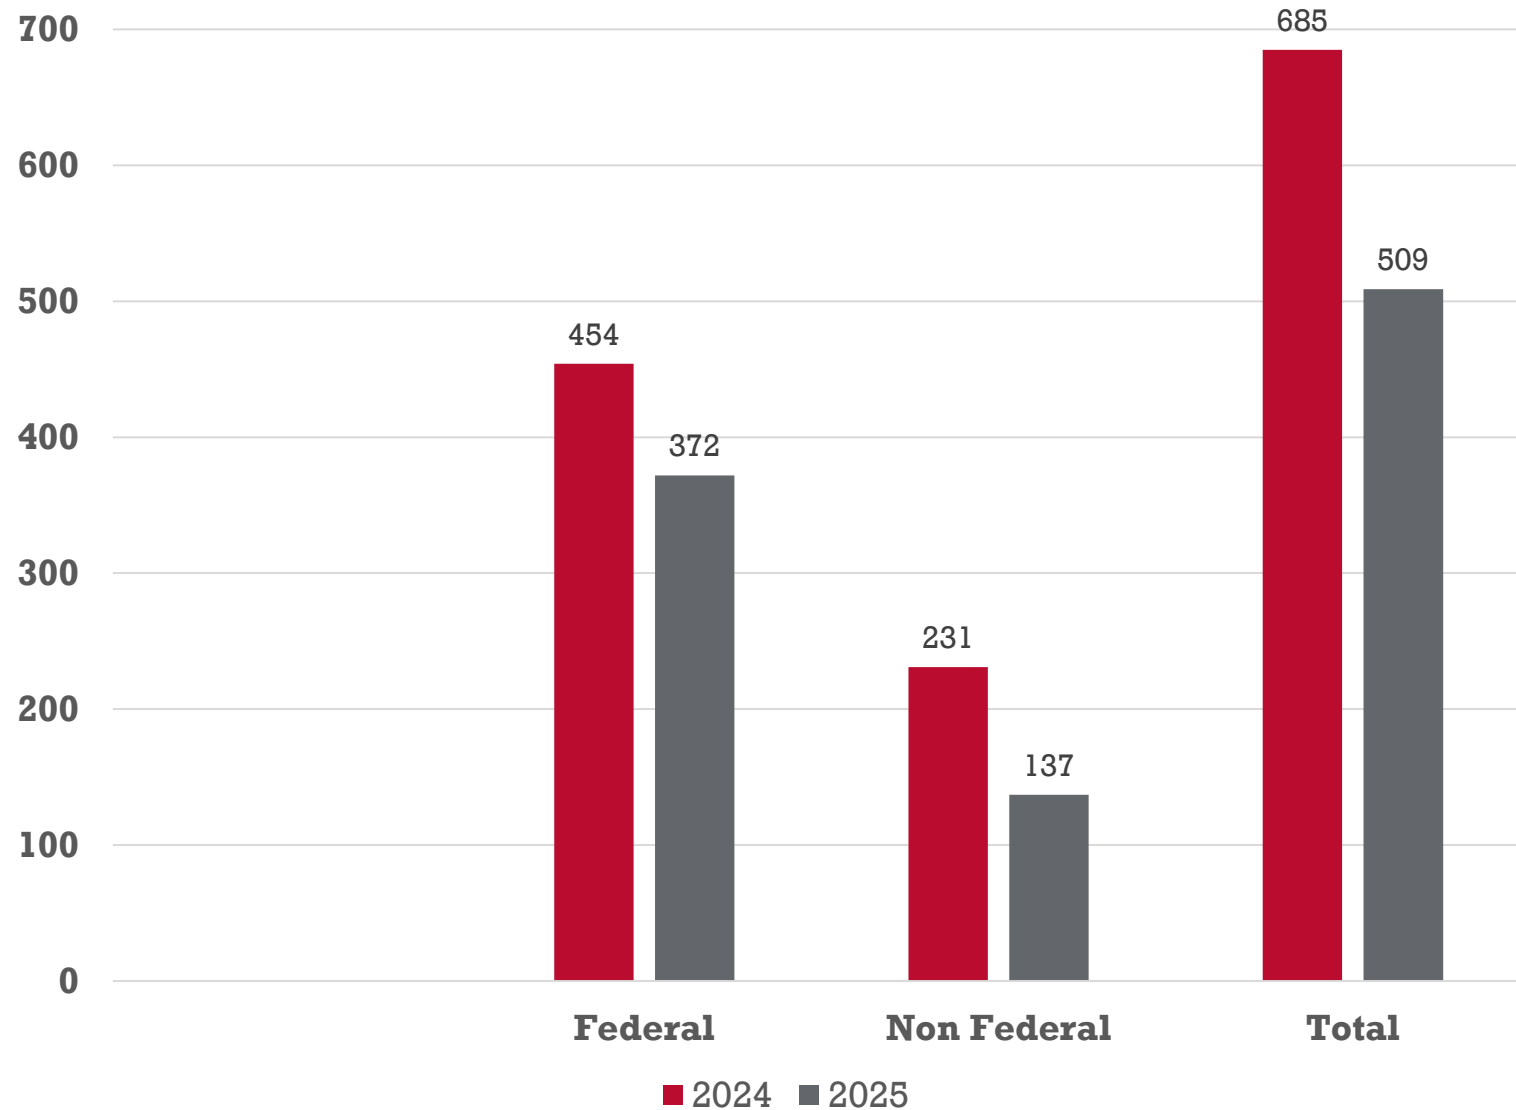

Born and raised in Nepal in a patriarchal society with financially struggling parents, **I thought it was my achievement for me when I received a Ph.D. from a university in the United States. I was wrong. I fell apart into pieces three years ago when my perfectly planned term pregnancy ended in a stillbirth, I almost losing my life. My real achievement was working through the immense grief and trauma of losing a daughter I never even got to hold, building myself back up, and keeping alive my dream of being a successful scientist while having a family.** Now I am a mother to a 1-year-old boy and an assistant professor at UNM – both roles that I am incredibly grateful to have and at which I am committed to be successful.

NIH REPORTER: NUMBER OF AWARDS RELEASED JAN. 21 – MARCH 21, 2024 VS 2025

Proposal Submissions January-March

Proposal Submissions

- Number down ~26% in first quarter of 2025
- Represents ~40% decrease in requested funding over same period
- Impacts FY26-30

UNM CASH FLOW: IMPACT ON RESEARCH

- Federal agencies must now review/approve every transaction
- Delays in payments: Increased burden on research administrators & PIs
 - DHHS expenditure reimbursement (March) totaled \$5.9 million for 185 funds.
 - NASA: March expenditure reimbursement totaled \$278K for 9 funds
 - They did not like the justifications that were submitted; now resubmitting
 - FEMA: Must do an amendment every month w/billing and other information before we can submit payment request
 - We have not been paid for requested Jan reimbursements (\$126K); cannot make request for Feb (\$111K) (8 active awards); still waiting
- Will not know full extent until all Federal agencies provide requirements and we can track how long it takes to receive payments.
 - National Science Foundation \$2.4M for reimbursement
 - Department of Education \$5.3M including \$3.7M for Financial Aid

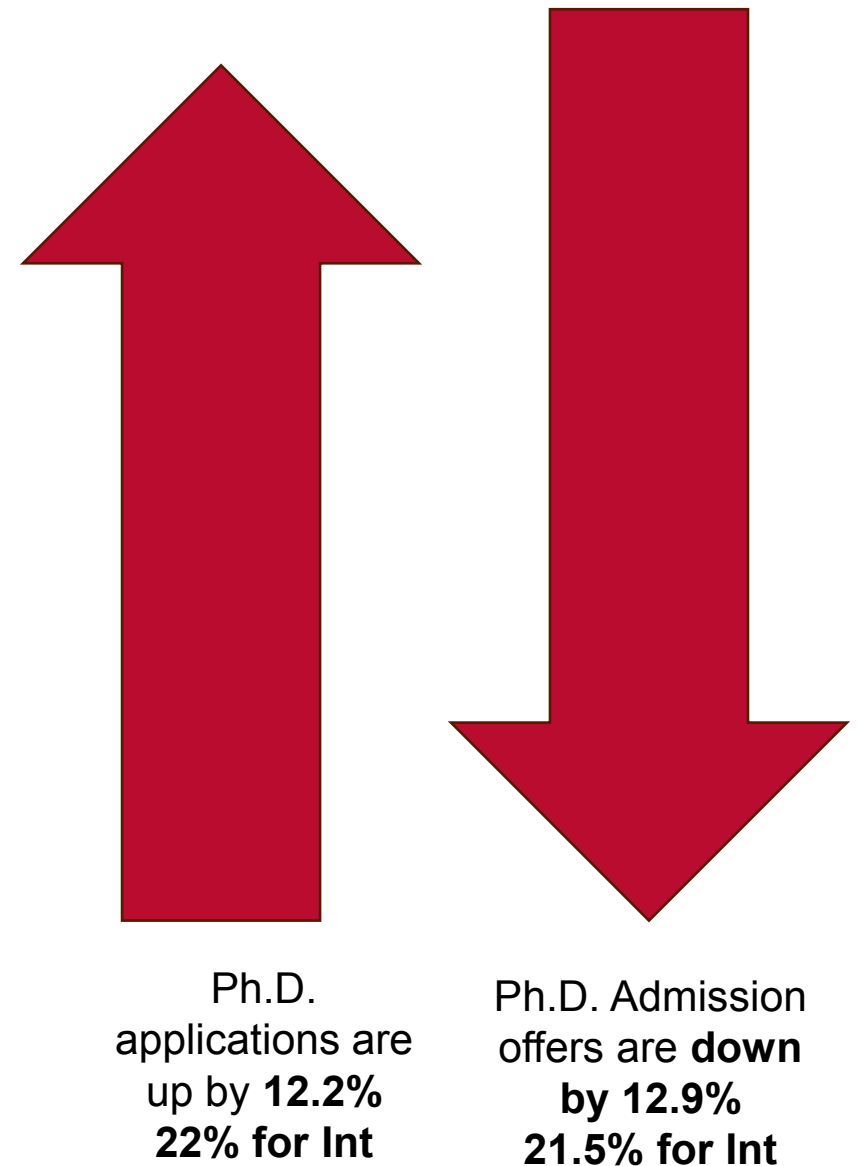

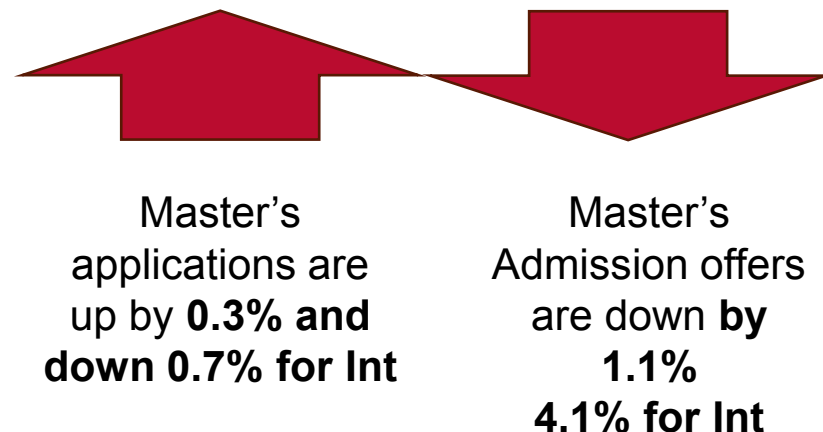

ANOTHER EXAMPLE

- Impact of delays in receiving requested payments:
- Based on ~\$30M/month request for drawdown
 - 30 days: \$44,055
 - 45 days: \$66,082
 - 60 days: \$88,110
- Department of Education grants
- 36 active grants
- Total anticipated: \$52,489,893
- Total through current award year: \$29,577,874
- Remaining for FY26 & beyond: \$22,912,019

UNM Graduate Students

- Graduate **applications**: Do not seem to be impacted:
 - Overall, grad applications up significantly for 2025 vs. 2024
 - Most programs had app deadlines in Dec/Jan
- Grad **enrollments**: Currently unknown – **For PhD Students**
 - Projecting a 3.8% enrollment decrease in 2025
 - Equates to 9 fewer students than Fall 2024
 - Admissions ~95% complete
- Grad **enrollments**: Currently unknown – **For Masters Students**
 - Projecting a 2.4% enrollment decrease in 2025
 - Equates to 17 fewer students than Fall 2024
 - Admissions ~75% complete

➤ **Grad Level Funding:**

- Many/most masters students are self-funded.
- At the doctoral level, students are much more likely to rely on funding packages/offers in making the decision to start a graduate program.

➤ **UNM Program Admission Decisions:**

- UNM Grad Studies: Programs should NOT systematically change approach to admissions or cut back on offers
- Programs asked to make sure they had an identified funding source before making funding offers.
- In the past, standard practice was to admit students without knowing definitely where future funding would come from (i.e., offering a 3-year funding package to prospective PhD student even though a faculty member's grant is for 2 years; thus, relying on expectation of future funding identified by year 3).
- Most departments at UNM did not feel this was a wise choice in the current climate. This is a likely contributor to the contraction in offers.

***“...collaborative,
it’s the co-creation
of knowledge.”***

***– UNM
Postdoctoral
Fellow Divana
Olivias***

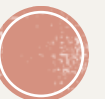

***“...making those things we once
thought were impossible,
possible” – UNM Professor
Richard White***

RESEARCH IS...

***“...offering an unapparelled
experience for our students”
– UNM Associate Professor Yi He***

***“...not just a job...”
– Amera Abu
Kabeer, UNM
Research
Administrator***

***“... to build upon the
foundation we’ve been given
and build an even better
foundation for future
researchers” – UNM Undergrad
Jacob Dawes***

“...thinking about how you can be of service to the community” – UNM Research Assistant Megan Joe
